

THE VIEWER — Express modal + Schematics on every query

PROPOSAL · dark (R3) · guarantee = a relevant graphic is ALWAYS shown (fallback chain) · nothing invented (R1)

① EXPRESS MODAL (bypass when exact)

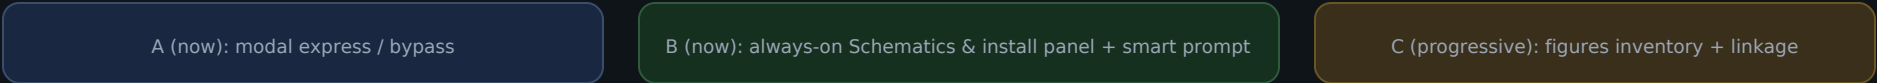

② EVERY QUERY → SCHEMATICS

③ DATA WORK — makes it precise (progressive)

PHASES

☐ input / prompt ☒ graphic shown (anchored) ☒ extraction / linkage ☐ result / dependency

Guarantee: a relevant graphic ALWAYS appears (page + vehicle schematics as the floor); part-specific figure surfaced & cited when the manual provides it.

Honesty: install locations & figure refs are verbatim from the manual with TM#/page — never AI-invented. Precision grows with OCR.

Rule R1 read-only/anchored · R2 this diagram · R3 dark+PDF · (R4 changelog + R5 visual panel added when built).
