

The Masterfile — one congruent consolidation of every dimension (no links surfaced) v1.1.4

Corpus authoritative · external only fills gaps · external web provenance kept internal (audit only)

What the reader sees

HMMWV — filtered (canonical per dimension)

length	180 in	authoritative
weight	7700 lb	authoritative
capacity	25 gal	external · unconfirmed
electrical	24 V	external · unconfirmed

No web links. Corpus values point to the manual page; external values are labelled and unlinked. One file, congruent with the corpus and the rest of the project — raw + filtered, correlated to the authoritative files.
