

THE VIEWER v1.5.0 — PUBLOG catalog · scanner · hybrid search · exploded view (data flow)

Five lanes: the official DLA federal catalog, hand-scanner + camera scan-in, smarter retrieval, and an interactive assembly walkthrough. Additive & rollbackable (R1); corpus + PUBLOG CSVs read-only (R6).

1 PUBLOG / FLIS — ~16 GB official CSV export -> authoritative offline part identity

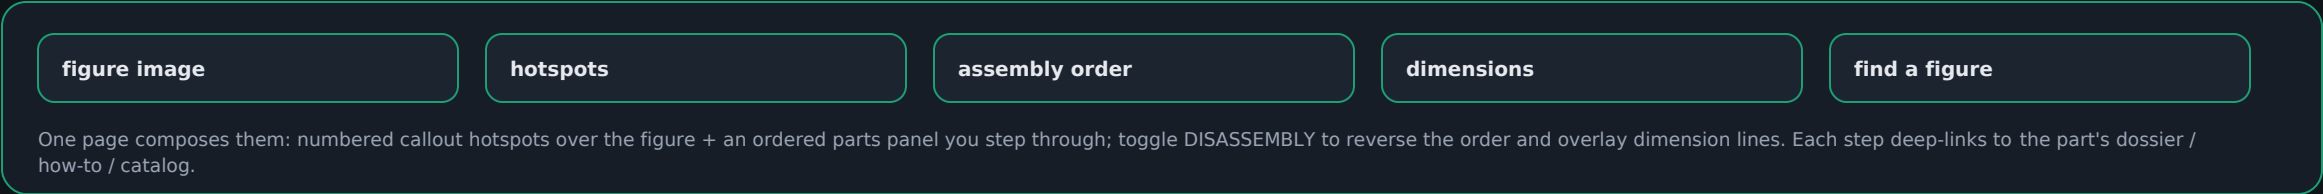

2 SCAN A PART — hand scanner (any page) or camera -> the catalog

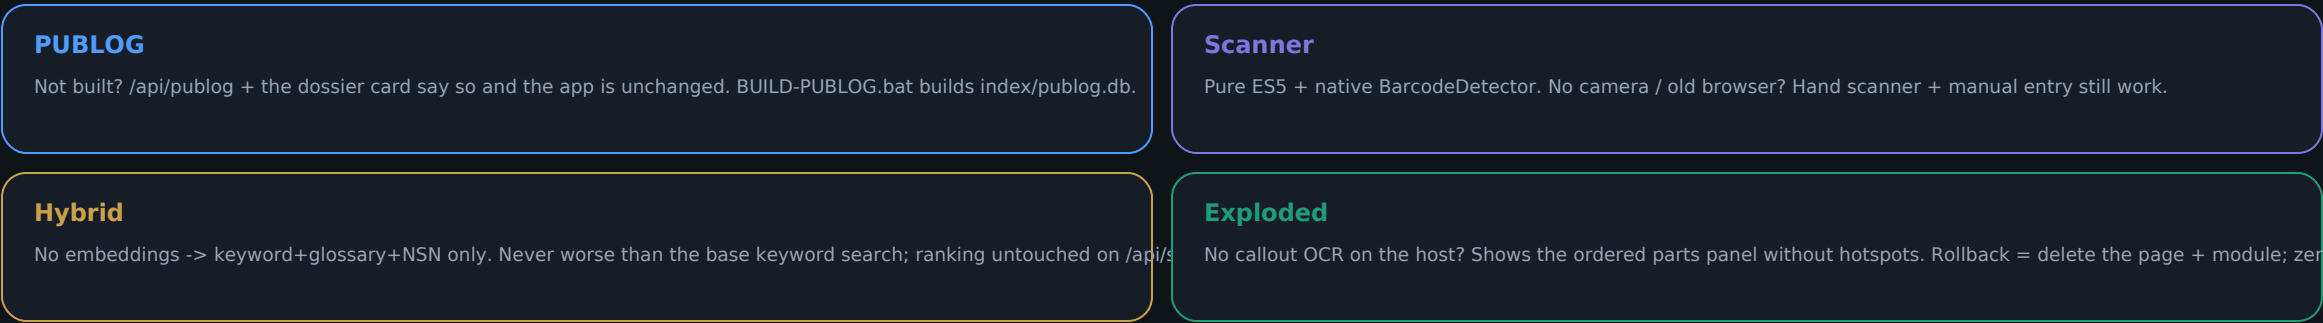

3 HYBRID + GLOSSARY SEARCH — smarter retrieval, each signal degrades on its own

4 EXPLODED / ASSEMBLY VIEW (/exploded) — a figure becomes a step-through walkthrough

GRACEFUL DEGRADE & ROLLBACK (unchanged doctrine)
